Interests

Amateur radio

IT Community & Meetups

Traveling & Transport

UI & UX Design

I hereby give consent for my personal data included in the application to be processed for the purposes of the recruitment process in accordance with Art. 6 paragraph 1 letter a of the Regulation of the European Parliament and of the Council (EU) 2016/679 of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).

Experience

React Developer at mobitouch
October 2022 - Present

Architecting and developing scalable web applications within the React ecosystem.

- Mentored the frontend path of the company's mLab apprenticeship program during the summer of 2024 and 2025. On the 2024 edition, we spearheaded the development of LearnGo Quizzes, an AI-enhanced quiz sharing platform. And in 2025, we created two hybrid web/mobile apps: for reporting nature monuments and earning badges for eco-friendly activities.
- Co-developed Loymee, a loyalty PWA web application integrated with mobile wallets that empowers customers to collect points across various shops, restaurants etc., and redeem them for rewards.
- Initiated the development of LearnGo, a comprehensive and customizable learning management system tailored for companies and NGOs.

React Developer at Seth Software
July 2021 - September 2022

- Developed an instance of Fahrel Monitoring (a fuel delivery camera monitoring system) for a big European fuel transport company (React, Redux, TypeScript)
- Scaled the Cropchart ecosystem web apps (Cropchart, Cropchart Manager, Brigadier) for new features and clients, enhancing a CRM-like platform for farmers (React, Redux, AG Grid)

Junior Front-end Developer at Brand Active
January 2021 - June 2021

- Developed and customized Shopify-based e-commerce websites utilizing Shopify Liquid and React.
- Maintained Brand Active's WordPress-based company website, adding new case studies and features.

Flagship project

More can be found on my portfolio site.

"Plan lekcji express" (React, Next.js, TypeScript, Tailwind CSS - open source project):
a mobile-first school timetable viewer that displays data based on static table-style web pages generated by VULCAN Optivum, used by 1,000+ students at ZSE Rzeszów, Poland
(project link, repository)

Education

Bachelor's degree in Computer Science at University of Information Technology and Management in Rzeszów
October 2023 - March 2027 (in progress) | Year Representative & Leader of KNNTP New Programming Technologies Science Club
